

# Proposed Amherstburg Condominiums

Amherstburg, Ontario, Canada

The Amherstburg Hotel and Condominium Development consists of two 8 storey towers adjacent each other; one a 70 unit hotel and the other an 8 storey condominium. The two structures feature a variety of amenities such as a spacious pool, rooftop patio and barbeque area, and ample parking for tenants and owners. Potential ground floor commercial space may be incorporated into the condominium building. The project was envisioned as a modern, environmentally conscious solution to the increased demand for luxury hospitality and high quality condominium living within close proximity to the town core where both potential retirees and tourists could help provide occupancy for these new spaces.
