

Spry Agency - Interior Renovations

500 Ouellette Building, Ouellette Avenue, Windsor, Ontario, Canada - Completed in 2010

The 11th floor of the high rise office building at 500 Ouellette Ave. in downtown Windsor, Ontario was designed for it's new tenants by Passa Architects in 2010. The renovation of this prime office space was aimed at being very indicative of the nature and culture of the tenant, the Spry Agency. This nearly 2,400 sq. ft. space has both the clear focused appearance of a minimalist design combined with the comfortable chic of a modern coffee house. The space is a very open and transparent office setting which has used contrasting white floating bulkheads on a black exposed ceiling to help define spaces within. A number of colourful accent walls along with the honey coloured wood flooring give warmth to the otherwise black and white colour scheme. The clear and concise layout combined with the warming elements relate well to a demanding and boundary pushing web design firm focused on success yet still dedicated to the well being of it's employees with it's inter office culture.
