Italian Canadian Handicapable Association (ICHA) Novelletto Rosati Sports Complex - Completed in 2002

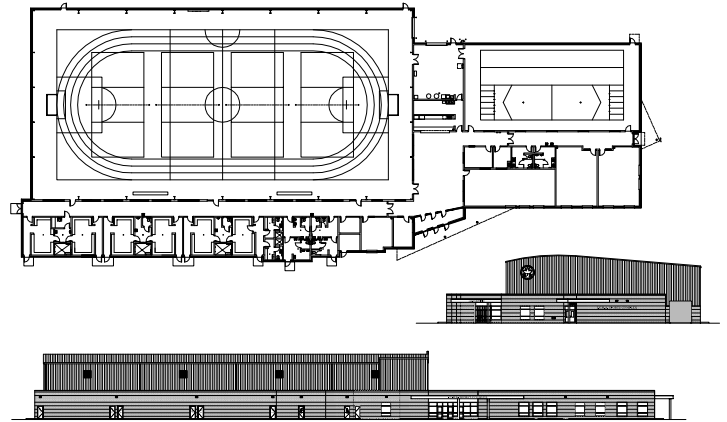

The Italian Canadian Handicapable Association's indoor soccer arena and community centre is highly valued and well used recreational facility in the Windsor-Essex region. The focus of this 45,000 sq. ft. facility is an indoor soccer field with "Field Turf" flooring which can be used for a variety of other purposes such as volleyball, rugby, lacrosse, field hockey and football. The remainder of the complex includes multi-use community rooms, games room, and a kitchen servery with eating area.

The building was planned in conjunction with two adjacent full sized exterior soccer fields. This facility has become Windsor's premier location with night lighting, spectator seating, change rooms and washrooms that can be used for both indoor and outdoor activities.

St. Denis Athletic & Community Centre Facility Renovations - University of Windsor - Completed in 2004

Passa Associates Architects was asked to design the 14,960 sq. ft. renovations for the ground floor of the Human Kinetics facility of the University of Windsor. This renovation project required extensive renovations and upgrades of the ground floor locker rooms, weight room, shower rooms, saunas and accessory offices and back of house areas. School pride and spirit resonates within the renovated areas due to the bold colour scheme being geared to the obviously associable school colours which contributes to the revitalizing of the facility for students and the Windsor community.

LaSalle Fitness New Pool Expansion LaSalle, Ontario, Canada - Completed in 2006

The 6,000 sq. ft. expansion of LaSalle Fitness was completed with the most up to date pool equipment and installation techniques. The design and implementation of the project was unique in that the new pool was installed inside an existing structure. The renovated existing space annexed by LaSalle Fitness included a lap pool, spa, locker rooms and a work out / weight room.
