

Passa Associates Inc., Architects

Windsor, Ontario, Canada - Completed in 2005

The offices for Passa Associates Architects are located on the 8th floor of the historical landmark Canada Building in the heart of downtown Windsor. The revised space of approximately 1,600 sq. ft. was gutted and replaced with a modern 'loft' aesthetic which acts as a showcase of various materials for clients and visitors of the firm. The entry gallery funnels into the expanded heart of the open office team rooms, library, conference room and kitchen area with high ceilings and ample amounts of daylight offering views of the Detroit River and city skyline.
